

Corporate Ethics and Organisational Integrity

JPC wishes to contribute to sustainable social development and responsible business practices. JPC has defined a set of basic corporate values, ethical guidelines and corporate social responsibilities principles for the entity to achieve this. The ethical guidelines and other policy documents of JPC have been drafted on the basis of these basic corporate values.

In the circumstances, the ethics risk profile was conducted in July 2014 with the intention of identifying the ethical risks for the organisation and coming up with practical mitigation measures for abating these risks. The results of the ethics risk profile were used for purposes of compiling a comprehensive ethics management plan. The plan was also reviewed as part of the consolidation process.
