

## Statement of Responsibility

The Directors are required by the Municipal Finance Management Act, 2003 (Act No 56 of 2003) and the Companies Act, 2008 (Act No 71 of 2008) to maintain adequate accounting records and are responsible for the content and integrity of the financial statements and related financial information included in this report. It is the responsibility of the Directors to ensure that the financial statements fairly present the state of affairs of the Company as at the end of the financial year and the results of its operations and cash flows for that period. The External Auditors are engaged to express an independent opinion on the financial statements and were given unrestricted access to all financial records and related data.

The financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP), including any interpretations, guidelines and directives issued by the Accounting Standards Board. The financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The Directors acknowledge that they are ultimately responsible for the system of internal financial control established by the Company and place considerable importance on maintaining a strong control environment. To enable them to meet these responsibilities, the Board of Directors sets standards for internal control aimed at reducing the risk of error or deficit in a cost-effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures, and the adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the Company and all employees are required to maintain the highest ethical standards in ensuring the Company's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the Company is on identifying, assessing, managing and monitoring all known forms of risk across the Company.

While operating risk cannot be fully eliminated, the Company endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems, and ethical behaviour are applied and managed within predetermined procedures and constraints.

Based on the information and explanations given by management, the Directors are of the opinion that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the financial statements. However, any system of internal financial control can provide only reasonable and not absolute assurance against material misstatement or deficit.

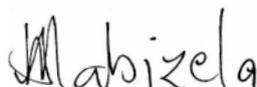

The Directors have reviewed the Company's cash flow forecast for the year ending 30 June 2016 and in light of this review and the current financial position, they are satisfied that the Company has or will have access to adequate resources to continue in operational existence for the foreseeable future. The financial statements are prepared on the basis that the Company is a going concern.

Although the Board of Directors is primarily responsible for the financial affairs of the Company, they are supported by the Company's External Auditors, who are responsible for independently reviewing and reporting on the Company's financial statements.

The financial statements, prepared on a going concern basis, have been approved by the Board of Directors in August 2016.
