Scope of Works

Background

The proposed Haylon Hill Housing Resettlement involves the development of 6 housing enclaves that will have 5 housing blocks each. Each housing block will have 12 units and the resettlement will have 360 total units. The resettlement will comprise of affordable units, social housing as well as communal units. Associated bulk infrastructures such as water and sewer pipes are also included in the proposed development.

The proposed Haylon Hill Housing Resettlement is located in Laser Park, City of Johannesburg Metropolitan Municipality (CoJ) in the Gauteng Province (Figures 1 and 2). The proposed development falls on Portion 5 and 6 of Haylon Hill Agricultural Holdings as well as the Remaining Extent of Portion 442 of Farm Wilgerspruit 190 which are located adjacent to Eagle Canyon Golf Estate in Roodepoort, City of Johannesburg Metropolitan Municipality (CoJ), Gauteng. Randburg is located to the east of the proposed development site, North Riding to the north east, Sonnedal to the north east and Eagle Canyon to the south.
The findings from the Environmental Screening Report require that a Basic Assessment Process and Water Use License Application (WULA) Process, including the following Specialist Studies:

- Terrestrial Ecological (Fauna and Flora) Impact Assessment
- Aquatic and Wetland Delineation Impact Assessment; and
- Heritage Impact Assessment

Development Information

The proposed development is for new residential dwelling units. The site is situated in Haylon Hill A.H and is made up of 3 existing erven with are proposed for the ultimate consolidation and rezoning:

The total area of the development is 43 076 m², however a portion (3 557 m²) of the erf RE 442 would need be undevelopable due to Vlagskip road and an existing substation. Thus enable a total developable area of 39 500 m².
Scope of Works

Terrestrial Ecological Impact Assessment: An Ecologist is required to investigate how much indigenous vegetation will be cleared (if any) and if any fauna and flora species of conservation importance would be affected by the proposed development and if so, undertake a Search, Rescue and Relocation Plan of Flora/Fauna, if necessary. The study should also identify if any permits would be required from DAFF for the Protected Trees that occur on site.

The Scope is further defined as:

Undertaking the Terrestrial Ecological (Fauna and Flora) Impact Assessment, in order to ground-truth the environmental sensitivities on the site.

Flora Assessment:

- Literature review (this will include the initial desktop screening to identify areas that are likely to have populations of threatened species or sensitive habitats)
- Desktop analysis of photographs, topographical maps and Google Earth imagery; and
- Site visit.

The site will be evaluated using a random sample approach, whereby transects will be considered that intersected one or more habitat forms. Particular consideration will be given to areas that will be identified from aerial imagery as being variants or outlier communities within the study area. All commonly encountered botanical species will be noted, such as grasses, herbs (forbs), shrubs and trees. The plant community associations and consociations associated with Red Data listed faunal species known to occur in the quarter degree grid square will be examined intensively for the presence of such species. Attention will also be paid to the occurrence of alien species and declared weeds.

Fauna Assessment:

Mammals
During the site visit, the observed and derived presence of mammals associated with the recognized habitat types of the study site should be recorded. The adjoining properties will also be scanned for important fauna habitats. Mammals will be identified by visual sightings through random transect walks. In addition, mammals will also be identified by means of spoor, droppings, or burrows. The known or likely occurrence of other species of conservation concern should be determined. Any sensitive features or habitats, or rare or important mammals should be indicated on a map (preferably with GPS coordinates).

Avifauna
The likely occurrence of key bird species should be verified for the grid. Site visits should be conducted to record the presence of bird species associated with the habitat systems on the study site and to identify possible sensitive areas. The properties should be surveyed on foot and in the
process, sightings should be recorded through random transect walks. The adjoining properties will also be scanned for important bird habitats.

Reptiles
A list of reptile species that could possibly occur within the study area will be adopted from the South African Reptile Conservation Assessment (SARCA). During the field visits, the observed and derived presence of reptiles associated with the recognised habitat types of the study site should be recorded. This must be done with due regard to the known distributions of Southern African reptiles. Reptiles will be identified by sightings during random transect walks. Possible burrows or other reptile retreats (stumps or rocks) will be inspected for any inhabitants. Locals will be interviewed to confirm occurrences or absences of species and the adjoining properties will also be scanned for important reptiles’ habitats.

Amphibians
The appropriate methods should be used to determine the presence of amphibians on the site. During this survey; fieldwork will be augmented with species lists compiled from personal records; data from the South African Frog Atlas Project (SAFAP) (1999-2003) and published data.

Important Note: Bidders are expected to provide evidence of its experience in delivering projects of a similar nature, including contactable references. Bidders who do not provide such evidence will not be considered for this project.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

This Municipal Bidding Document (MBD) must form part of all bids\(^1\) invited.

Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).\(^2\) Collusive bidding is a _pe se_ prohibition meaning that it cannot be justified under any grounds.

Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:

a. take all reasonable steps to prevent such abuse;

b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and

c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

---

\(^1\) Includes price quotations, advertised competitive bids, limited bids and proposals.

\(^2\) Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
CERTIFICATE OF INDEPENDENT BID DETERMINATION

I, the undersigned, in submitting the accompanying bid:

(Bid Number and Description)

in response to the invitation for the bid made by:

(Name of Municipality / Municipal Entity)

do hereby make the following statements that I certify to be true and complete in every respect:

I certify, on behalf of: _____________________________________________ that:

(Name of Bidder)

1. I have read and I understand the contents of this Certificate;
2. I understand that the accompanying bid will be disqualified if this Certificate is found not to be true and complete in every respect;
3. I am authorized by the bidder to sign this Certificate, and to submit the accompanying bid, on behalf of the bidder;
4. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign, the bid, on behalf of the bidder;
5. For the purposes of this Certificate and the accompanying bid, I understand that the word "competitor" shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:

(a) has been requested to submit a bid in response to this bid invitation;
(b) could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities or experience; and
(c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder
6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium\(^3\) will not be construed as collusive bidding.

7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
   
   (a) prices;
   
   (b) geographical area where product or service will be rendered (market allocation)
   
   (c) methods, factors or formulas used to calculate prices;
   
   (d) the intention or decision to submit or not to submit, a bid;
   
   (e) the submission of a bid which does not meet the specifications and conditions of the bid; or
   
   (f) bidding with the intention not to win the bid.

8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.

9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

\(^{3}\) Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.
10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No. 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No. 12 of 2004 or any other applicable legislation.
