**BILL NO. 1**

**PRELIMINARIES & GENERAL**

**MINOR WORKS AGREEMENT**

The JBCC Minor Works Agreement (March 2014 Fifth 5.1) prepared by the Joint Building Contract Committee shall be the applicable building agreement, amended as hereinafter described.

**PRELIMINARIES**

The ASAQS Preliminaries (March 2014 edition 5.1) published by the Association of South African Quantity Surveyors for use with the said JBCC Minor Works Agreement shall be deemed to be incorporated in these bills of quantities.

**PRELIMINARIES APPLICABLE TO THE WHOLE OF THE WORKS**

**Fixed**

1 Preliminaries cost which shall be a fixed amount  

**Value Related**

2 Preliminaries cost which shall be varied in accordance with the value of the works  

**Time Related**

3 Preliminaries cost which shall be varied in accordance with the duration of the contract  

Carried to Final Summary  

Section No. 1  
Bill No. 1  
Preliminaries & General  
Prepared by Peo Ya Africa Consulting Engineering [PTY] LTD  

ZAR
### BILL NO 1

#### ALTERATIONS

**View site**

Before submitting his tender the tenderer shall visit the site and satisfy himself as to the nature and extent of the work to be done and the value of the materials salvageable from the alterations. No claim for any variations of the contract sum in respect of the nature and extent of the work or of inferior or damaged materials will be entertained.

**Explosives**

No explosives whatsoever may be used for alteration purposes unless otherwise stated.

**General**

The contractor shall carry out the whole of the works with as little mess and noise as possible and with a minimum of disturbance to tenants in the building and to adjoining premises and their tenants. He shall provide proper protection and provide, erect and remove when directed, any temporary tarpaulins that may be necessary during the progress of the works, all to the satisfaction of the principal agent.

Doors, fanlights, windows, fittings, frames, linings, etc which are to remain the property of the employer shall be carefully taken out, temporarily stored, transported over a distance of approximately ?km to store and handed over to the employer.

Section No. 2  
Bill No. 1  
Alterations  
Prepared by Peo Ya Africa Consulting Engineering [PTY] LTD
Doors, fanlights, windows, fittings, frames, linings, etc which are to be re-used shall be thoroughly overhauled before refixing including taking off, easing and rehanging, cramping up, re-wedging as required and making good cramps, dowels, etc, and oiling, adjusting and repairing ironmongery as necessary, replacing any glass damaged in removal or subsequently and stopping up all nail and screw holes with tinted plastic wood to match timber, unless otherwise described. Re-painting or re-varnishing is given separately.

Prices for taking out of doors, windows, etc shall include for removal of all beads, architraves, ironmongery, etc

Prices for taking out and removing doors and frames shall include for removing door stops, cabin hooks, etc

With regard to building up of openings in existing walls, cement screeds and pavings, granolithic tops of walls, etc, shall be levelled and prepared for raising of brickwork

Making good of finishes shall include making good of the brick and concrete surfaces onto which the new finishes are applied, where necessary

The contractor will be required to take all dimensions affecting the existing buildings on the site and he will be held solely responsible for the accuracy of all such dimensions where used in the manufacture of new items (doors, windows, fittings, etc)

TEMPORARY BARRICADES, SCREENS, ETC

Carried Forward

Prepared by Peo Ya Africa Consulting Engineering [PTY] LTD
## Brought Forward
- Temporary barricades, screens, roofs, etc including removal

## Removal of Existing Work

**Taking out and removing doors, windows, etc including thresholds, sills, etc (building up openings and making good finishes elsewhere)**

1. Timber single door and frame exceeding 2,5m² and not exceeding 5,0m² from half or one brick wall
   - No: 4

2. Gypsum plasterboard ceilings including cornices, timber brandering, etc
   - m²: 52

3. Carpet tile floor covering including preparing screed for floor covering
   - m²: 10

4. Tiles to walls
   - m²: 77

Prepared by Peo Ya Africa Consulting Engineering [PTY] LTD

-14-
Items described as "plugged" shall be deemed to include screwing to fibre, plastic or metal plugs at not exceeding 600mm centres.

Aluminium doors, windows, etc

Doors and windows shall comply with AAAMSA design criteria.

Glazing shall comply with SAGGA regulations. Glass shall be as shown on the window schedules/drawings appended to these bills of quantities. Glass thickness shall comply with SAGGA regulations irrespective of thicknesses shown on the schedules/drawings.

Doors and windows shall be supplied with protective tape and plastic and shall be removed only once surrounding trades have been completed.

For purpose made windows and doors, refer to drawings annexed to these bills of quantities.

The following certificates shall be provided prior to commencement of site work:

A copy of the relevant AAAMSA Performance Test Certificate from the manufacturer/contractor supplying the architectural aluminium product.

A Certificate of Conformance confirming that anodising or powder coating has been processed in accordance with SANS 999 and SANS 1796 respectively;
A powder guarantee of not less than 15 years issued by the powder manufacturer. The specific conditions contained in this guarantee shall form part of the powder coating process;

A Certificate of Conformance confirming that glazing has been installed in accordance with SANS 0137, ensuring that safety glazing materials have been installed in the mandatory areas and that each individual pane of safety glazing materials has been permanently marked;

A warranty from the manufacturer of the laminated safety glass and/or hermetically sealed glazing units guaranteeing the products against delamination and colour degredation for a period of not less than five years.

STEEL HANDRAILS, BALUSTRADES, ETC

Welded balustrading to mild steel

1 Raking balustrading to staircase or ramp of 80 x 40 x 2mm hollow section continuous top rail, 40 x 10mm flat section continuous bottom rail, 12mm square bar section intermediate balusters at 125mm centres between top and bottom rails and 38 x 38 x 2mm hollow section post at approximately 1200mm centres each with 120 x 50 x 8mm flat section base plate twice holed for bolts

BILL NO. 10

PLUMBING & DRAINAGE (MEASURED PROVISIONALLY)

The Contractor must read each description throughout this bill of quantities in conjunction with and in the context of the obligations, requirements and specifications stated in the descriptions, the Model Preambles for Trades (2008 edition) and the Supplementary Preambles to the Model Preambles forming part of these Bills of Quantities.

No claim arising from brevity of description of items fully described in the said Model Preambles for Trades and Supplementary Preambles to the Model Preambles will be granted.

SUPPLEMENTARY PREAMBLES

Sealing of edges:

Outer edges of sinks, basins, baths, urinals, etc are to be sealed against adjacent surfaces with approved silicone.

PVC-U pipes and fittings:

Sewer and drainage pipes and fittings shall be jointed and sealed with butyl rubber rings. Soil, waste and vent pipes and fittings shall be solvent weld jointed or sealed with butyl rubber rings.

Prepared by Peo Ya Africa Consulting Engineering [PTY] LTD
**PVC-U pressure pipes and fittings:**

Pipes of 50mm diameter and smaller shall be plain ended with solvent welded PVC-U loose sockets and fittings. Pipes of 63mm diameter and greater shall have sockets and spigots with push-in type integral rubber ring joints. Bends shall be PVC-U and all other fittings shall be cast iron, all with similar push-in type joints.

**High density polyethylene (HDPE) pipes and fittings:**

Pipes shall be type IV and of the class specified with compression fittings Polypropylene pipes.

Polypropylene pipes 54mm diameter and smaller shall be seamless copper coloured Class 16 pipes jointed with heat welded thermoplastic or where so described compression fittings. Pipes shall be firmly fixed to walls, etc with coloured nylon snap-in pipe clips with provision for accommodating thermal movement and jointed and fixed strictly in accordance with the manufacturer's instructions.

---

**Prepared by Peo Ya Africa Consulting Engineering [PTY] LTD**
Copper pipes:

Pipes shall be hard drawn and half hard pipes of the class described. Class 0 (thin walled hard drawn) pipes shall not be bent. Class 1 (thin walled half-hard), Class 2 (half-hard) and Class 3 (heavy walled half-hard) pipes shall only be bent with benders with inner and outer formers. Capillary solder fittings shall comply with ISO 2016 Copper pipes are to be installed in accordance with the latest revision of the Code of Practice for Copper Plumbing soldering techniques. Flux, solder, etc to be strictly in accordance with the manufacturer's requirements with special attention to copper flux composition.

Reducing fittings:

Where fittings have reducing ends or branches they are described as "reducing" and only the largest end or branch size is given. Should the contractor wish to use other fittings and bushes or reducers he may do so on the understanding that no claim in this regard will be entertained Fixing of pipes.

Unless specifically otherwise stated, descriptions of pipes shall be deemed to include fixing to walls, etc, casting in, building in or suspending not exceeding 1m below suspension level.

Paper wrapping to pipes:

Pipes chased into brickwork must be wrapped with two layers of stout brown paper tied with wire. Rates are to include for wrapping around joints and fittings.

Prepared by Peo Ya Africa Consulting Engineering [PTY] LTD
**Disinfection of water pipework:**

Water pipework is to be disinfected at completion.

**Petrolatum anti-corrosion tape:**

Pipes to be taped shall be coated with the appropriate primer and the tape shall be applied in the appropriate widths and with overlaps. Couplings and fittings to pipes shall be taped in strict accordance with the manufacturer's instructions.

Prices for wrapping of pipes shall include for all work as described to couplings in the length.

**Laying, backfilling, bedding, etc of pipes:**

Pipes shall be laid and bedded in accordance with manufacturers' instructions and trenches shall be carefully backfilled.

Where no manufacturers' instructions exist, pipes shall be laid in accordance with the relevant section of SANS 2001.
General:

Descriptions of cast iron roof outlets shall be deemed to include joints to pipes and casting into concrete (adaptors for joints to PVC pipes, etc are given separately). Descriptions of overflow pipes where measured in number, shall be deemed to include joints to cisterns and splay cut ends. Descriptions of pipes laid in and including trenches and of inspection chambers, catchpits, etc shall be deemed to include excavation, bedding, backfilling, compaction to a minimum of 95% Mod AASHTO density and disposal of surplus material on site.

Descriptions of service pipes and flexible connecting pipes shall be deemed to include connections to taps, cisterns, etc and to steel pipes (adaptors for connections to copper pipes, etc are given separately).

Descriptions of WC pans, slop hoppers, etc shall be deemed to include for joints to soil pipes (pan connectors are separately measured).

CLEAR SEWER AND WASTE WATER BLOCKAGE

Locate blockage, clear waste pipes by means of rodding distances between access eyes/open end (referred to as "Pipe Length") not exceeding 2m and removing all obstructions, etc. leaving pipes open and free flowing including disposal of all materials causing blockage.

**BILL NO. 12**

**PAINTWORK**

The Contractor must read each description throughout this bill of quantities in conjunction with and in the context of the obligations, requirements and specifications stated in the descriptions, the Model Preambles for Trades (2008 edition) and the Supplementary Preambles to the Model Preambles forming part of these Bills of Quantities.

No claim arising from brevity of description of items fully described in the said Model Preambles for Trades and Supplementary Preambles to the Model Preambles will be granted.

**GENERALLY:**

**Materials:**

All painting materials used on this contract shall be of the manufacture specified and shall comply with the manufacturer's application instructions. Only those paints and materials that have been approved by the Project Manager shall be brought on the site and used on the works. The Project Manager may inspect the paints so brought on and take samples from them for testing purposes.

On no account may paints from different manufacturers be mixed together.

Carried Forward

Section No. 2
Bill No. 12
Paintwork

Prepared by Peo Ya Africa Consulting Engineering [PTY] LTD
Application of paint:

Exterior painting shall not be carried out during rainy damp, frosty or other inclement weather or when such weather can reasonably be expected within the next eight hours. Each coat of paint, irrespective of the method of application, shall be adequately and permanently keyed on to the previous coat or surface and shall be evenly distributed, continuous and shall dry to a smooth film free of sags, runs or other imperfections.

Each priming coat and undercoat of painting shall be inspected by the Project Manager before any subsequent undercoat or finishing coat is applied.

Priming coats shall be well brushed in to obtain maximum penetration.

SUPPLEMENTARY PREAMBLES

All paintwork is to have a minimum maintenance cycle of 7 years in an inland environment.

All paintwork is to be applied in strict accordance with the manufacturers instructions.

All surfaces to be dry, sound and clean, properly cured, and rubbed down to remove all projections and imperfections prior to painting.

BILL NO. 14

PROVISIONAL SUMS

The Contractor must read each description throughout this bill of quantities in conjunction with and in the context of the obligations, requirements and specifications stated in the descriptions, the Model Preambles for Trades (2008 edition) and the Supplementary Preambles to the Model Preambles forming part of these Bills of Quantities.

No claim arising from brevity of description of items fully described in the said Model Preambles for Trades and Supplementary Preambles to the Model Preambles will be granted.

GENERALLY:

Prime cost amounts and provisional sums are net. Prime cost amounts shall include for delivery to site of all articles concerned Provisional sums are for material and equipment supplied and installed complete by firms of specialists Profit.

Where stated, the contractor may allow for profit if required.

The item "attendance" which follows each provisional sum for nominated/selected subcontractors' work, shall be deemed to cover all the contractor's costs incurred in providing free of charge to the nominated/selected subcontractors the contractor's duties as described in clause 12.2 of the JBCC N/S Subcontract Agreement.

Carried Forward

Section No.  2
Bill No.  14
Provisional Sums
Prepared by Peo Ya Africa Consulting Engineering [PTY] LTD
Brought Forward

Special attendance on nominated/selected subcontractors:

Where "special attendance" such as unloading, storing, placing in position, providing special power supplies, specific hoisting, cranage and scaffolding requirements, provision of temporary casing and/or other specific protection of the works, special security and clearing away rubbish is required, a separate item describing the specific requirements in detail is to be provided for the pricing of such requirements Builder's work.

Builder's work in connection with specialist services is given elsewhere in these bills of quantities.

PROVISIONAL SUMS

SALARY TO THE COMMUNITY LIAISON OFFICE

1 For the Community Liaison Officer (CLO) salary, including cell phone allowance.
